

**Niteo Africa's mission statement:**

To dignify the heart and mind of the African child and provide support and programming to this end.

**Partnering with Ugandans  
in educating our children**

**Suubi Women's Initiative**

In June of 2011, volunteers at the Kansanga Resource Centre commenced an income generation project for the women who live in the area. In five short weeks, the small, but motivated, group of women learned to make beautiful embroidered greeting cards and are currently selling them on a weekly basis.

**Objectives**

- To teach vocational skills and provide income-earning opportunities for Ugandan women who currently struggle to meet the basic needs of their households
- To produce marketable products to be sold internationally to raise funds for Niteo's Kansanga Resource Centre
- To encourage Ugandan women to launch businesses of their own and help them raise the capital to do so
- To involve women from around the world in a program that will create awareness about extreme poverty and will enrich the lives of all who participate
